Some statistics

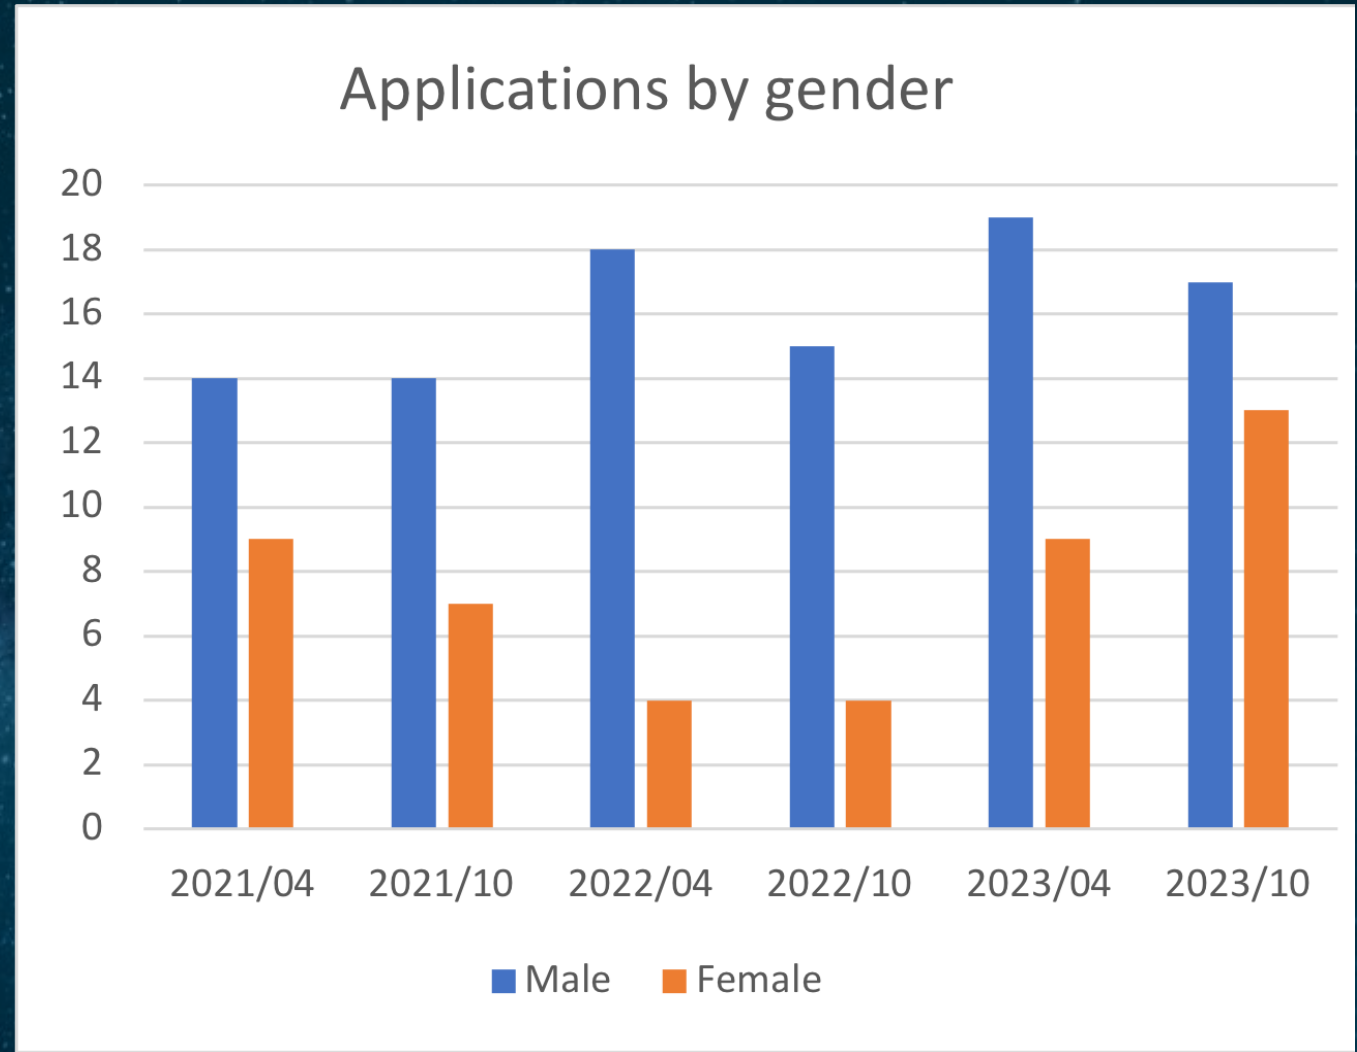

applicants nationals of IT (5), ES (3), IN (3)

Towards a balanced gender distribution

- So far, gender distribution was biased towards men, small numbers statistics?
- Big thanks to AAUG for insisting on double anonymous review, fully advertised
- It seems to work! Balanced distribution (55% / 45%) for applications and shortlist
- Will keep monitoring...

- 30 April: application deadline
- 10 May – 10 Jun: reviews (User Groups+ESA Faculty)
- 15 Jun: discussion (telecon/email) to agree on recommendations to ESA Management
- 20 Jun: decision by ESA Management
- 1 July: outcome announced via ESA Science Communication channels
- Or should we announce it at EAS meeting special session on 3 July?
